Week 6: Threes

Stretch Your Skills with Photo Assignments

Assignment #6: Threes

- The rule of three in photography involves arranging subjects or elements in groups of three to create more balanced, dynamic, and engaging compositions compared to even numbers. This compositional technique, often used for, but distinct from, the rule of thirds, adds a natural flow and avoids static, centered, or split-scene images.
- The pictures must be taken between now and Sunday (3/22)
- Visit <https://qfam.org/PhotoAssign/> for how to upload the image
- Images due Sunday 22 March (or earlier!)
